

UPTIX AND THE PATRON PORTAL

WHAT IS IT?

Using a secure and simple sign-in online portal, fans are able to manage the value on their tickets.

WHAT ARE THE BENEFITS?

LETS FANS MANAGE THE VALUE ON THEIR TICKETS

Fans can add value, move the value that's been added on to tickets for specific times, dates, or events as well as divide and manage the value on multiple tickets using their account on the Uptix Fan Patron Portal.

DRIVES ADDITIONAL SPENDING AT THE GAME

Fans love using the portal because it gives them a way to manage the stored value on their tickets from almost anywhere. Because the Uptix Fan Patron Portal also works in real-time, when fans load value on their tickets or move value from one ticket to another, it happens instantly, which can drive spending at the game or event!

SPONSORED VALUE AND PATRON VALUE

Teams can set different rules for sponsored value (money the team adds onto a ticket/account) and patron value (money the fan adds to the ticket/account) which would allow sponsored money to become invalid, or only used during certain time periods etc. This stops fans from spending all sponsored value at once and further encourages lift on sponsored value.

WORKS AS A GREAT CORPORATE INCENTIVE

When giving tickets to corporate clients or as gifts, businesses can load their event tickets with added stored value, ensuring their clients or guests are well-taken care of during a game or event. The added stored value can be used towards concessions or merchandise purchases throughout the venue.

OTHER FEATURES

- Easy online access from anywhere
- Check ticket stored value balances
- Manage balances and transfer funds between tickets
- Reload tickets automatically
