CORPORATE INCENTIVES – REWARD, MOTIVATE, ENGAGE

Build a Culture of Recognition to Motivate

Service recognition awards and incentives have a positive impact on employee work performance and the bottom line. Studies have shown that highly engaged teams can increase profits by 21%. The reason? Engaged employees realize a 41% reduction in absenteeism, and 59% less turnover, and will go the extra mile when their work is acknowledged. When you give a GIFTPASS from giftpass.com, you are letting your employees know that their efforts are appreciated and that their contributions to the organization matters. The GIFTPASS allows your employees to choose how they want to be rewarded, so each gift is personal in its way.
