CWS/4.0

FEATURES

GIFT CARDS INFORMATION

Users can be fully aware of their gift card's usage history, checking the card's balance and it's previous transactions.

GIFT CARDS PROTECTION

The site offers users the ability to register their gift cards to prevent theft or loss. It's also possible to report stolen/lost cards in the same site.

CUSTOMIZE PHYSICAL GIFT CARDS

Want to offer truly personalized gift cards with custom messages and images? Our CWS allows your customers to personalize a physical card and get it delivered using out fulfillment services.

GIVEX CUSTOMER WEBSITE

YOUR ONLINE TOOL TO INCREASE SALES

The Customer WebSuite is an online module-based site that allows you to sell gift cards. Our responsive template provides your customers with a seamless omnichannel experience, whether they are using smartphones, tablets or desktops. With different modules to select from, you can also add your loyalty program and sell B2B gift cards and e-gift cards in the same online environment, so your customers don't have to jump from site to site to purchase different items.

LOYALTY WEBSITE

Using the same gift card functionality, customers can register, check balance, and redeem rewards using their accumulated points in the same friendly interface.

SECURITY

All online transactions are protected using the highest security standards within the industry.

B2B GIFT CARDS

Sell cards in bulk to your corporate clients. You can add this module and your clients can buy.
